

## **Mentor Program**

The Mentor Program is a two-pronged approach designed to benefit and reach as many current and potential members as possible.

- SCUPA members speak with paralegal students at various Upstate paralegal programs to offer mentoring services and to discuss issues pertinent to students regarding their expectations as they begin a paralegal career, including advancement within the profession.
- Additionally, the Mentor Program addresses the needs and concerns of our more seasoned members through a professional network. This network serves as a contact resource for a paralegal who may be thrown into an unfamiliar assignment or who perhaps is considering moving into another area of law but would like to investigate it further by speaking to another paralegal with experience in that particular field.

If you are interested in speaking to paralegal students about our Mentor Program or in serving as a network resource for fellow members, please contact [mentor@scupa.org](mailto:mentor@scupa.org).
