

Sunshine Committee

SCUPA's commitment extends beyond its concern for the professional development of its members. It also recognizes the need to provide compassionate support to individual members in certain life situations. The Association has developed guidelines for this Committee to assist in delineating the circumstances under which a card or flowers should be sent to an individual member.

While SCUPA is not always aware of the significant events that occur in the lives of each of its members, it does strive to acknowledge those events that are brought to the attention of this Committee.
