

Social Committee

The purpose of the Social Committee is to build a strong sense of friendship within our network. By holding social events beyond our monthly luncheons we are building upon the foundation of SCUPA. Social events allow interaction with other members and generate more awareness of SCUPA efforts.

The Social Committee plans and implements social and outreach events that cater to the needs and interests of SCUPA members. Feedback from members is obtained to determine the success of our efforts and to keep abreast of members' interests.
